PROFESSIONAL BOSCH INTERPRETATION EQUIPMENT & AV-SOLUTIONS FOR YOUR VENUE

PLANSON & TELETECH

With our conference solutions your venue will live up to the highest international standards.

Planson Europe has been supplying the UN system, NGOs, the US government, International Finance Institution borrowers, USAID projects, and emerging market private sector clients for 20 years.

Teletech has delivered interpretation systems, audio-visual equipment and technical project management for international meetings and conferences for 30 years.

THE RIGHT EQUIPMENT

To host a successful conference you need the right equipment to ensure speakers get their message across.

Your venue will facilitate every modern meeting situation, from small meeting rooms to large auditoriums, with our highly flexible solutions comprising professional interpretation equipment, sound systems, large screen projectors, videoconferencing and voting equipment.

BOSCH BSSD PARTNER

Teletech is an authorized BOSCH BSSD dealer. BOSCH conference equipment is recognized for its outstanding quality by parliaments and venues worldwide.

TECHNICAL PROJECT MANAGEMENT

Our highly qualified staff perform site inspections, configure optimal solutions, deliver state-of-the-art equipment at the right price, and constantly monitor all aspects of delivery, installation, startup and training.

Enjoy complete freedom of movement while listening to the selected language.

PROFESSIONAL TECHNICIANS

All installations are done by professional Teletech technicians with years of experience.

When they arrive at your destination they carefully control all equipment to make sure everything has arrived safely prior to the installation.

WE KNOW AFRICA

Both Planson Europe and Teletech are experts in delivering services and equipment in Africa. Planson offers a multilingual staff who are ready to serve you in English, French and Spanish.

DELIVERING ON TIME

We use dependable international forwarders, and together we have a solid track record of delivering goods on time and unscathed to the most remote and challenging areas of the world.
